Document Management

- Document Capture Automation
- Web Forms / eForms Management
- Business Process Management

Move Beyond the Speed of Paper

When we say, “we’ve got you covered” we mean it. We customize industry specific document management tools to help improve the efficiency of a variety of business processes. And trust us, if there’s a paper intensive process you’ve been trying to tackle, Milner has an answer for it. We do document management better!

Quickly Capture Documents Anywhere

Save time by automatically capturing content in any form, making it available to anyone in your office, no matter where they are.

Secure and Protect Confidential Data

Protect your documents against unauthorized access, simplify compliance, and minimize risks, even when you’re on the go.

Speed Up Business Processes

Minimize process delays, data silos, and disconnected documents by managing all your information within a single platform.

Improve Your Flexibility with eForms

Effortlessly capture and store critical information on your web forms – eliminating repetitive processes.
